

# St Mary's Church, Bampton

## Parking

Please note that, as in all local villages, parking is limited so please, if at all possible, do not bring more than one car per family and share with another parent/family if you can.

There is a car park in the Market Square in the centre of Bampton, with on-street parking outside and opposite Budgens (which faces the Square). There is another car park off Church View (in front of and behind the Youth Centre), which should be clear during the afternoon. The area in front of the church, apart from local residents, will be reserved for school vehicles. There is on road parking in Bridge Street, Church View and the part of Landells, nearest to the church, as well as on Broad Street. None of these locations leaves you with very far to walk.

Please think of local residents when parking and do not park selfishly or in a way which will cause obstruction. We will have staff on duty to direct traffic and advise you where to find spaces.
